OBJECTIVE

Creative and detail-oriented MERN Stack Developer Fresher with a strong foundation in Frontend development and UI design. Skilled in building responsive and scalable web applications using MongoDB, Express.js, React, and Node.js. Proficient in Figma for crafting intuitive user interfaces. Passionate about clean code, performance optimization, and delivering seamless user experiences while continuously learning new technologies.

EDUCATION

2022-2025

Bachelor of Commerce with Computer Application,

Sri Krishna Adithya College of Arts and Science Affiliated Bharathiar University in Coimbatore.

SKILLS

Technical Skills : UI Designer[Figma] , HTML, CSS, Bootstrap, Tailwind, JavaScript, Reat.JS, Node.JS, Express.JS, Mongo DB, Python and MS office

Soft Skills : Teamwork, Adaptability, Problem-solving, Time management and Emotional intelligence.

PROJECTS

E-Commerce Website : I designed an e-commerce website prototype in **Figma** to plan the layout and user experience. Then, I Built the website using **HTML and CSS** turning, the design into a working site. The project focuses on clean visuals, easy navigation and responsive design for all devices. It shows how a design idea can be transformed into a real, functional shopping platform.

AI voice assistant : I built an **AI voice assistant in Python** that can listen to voice commands and respond. It performs tasks like searching the web, telling the time or opening applications. The project uses libraries for **speech recognition and text-to-speech** to interact naturally. It shows how AI can make everyday computer use **hands-free and simple**.

Task Manager : I created a **Task Manager UI design in Figma** to organize daily activities in a simple way. The design focuses on **clean layouts, easy navigation and productivity features**. I used modern UI principles like **minimalism, consistency and responsive structure**. This project shows how design can make task management feel clear and user-friendly.
